### STUDENT ABSENCES

When parents phone in absences for their child we have been asked that they report if their child is absent because s/he has a fever, and/or is experiencing stomach and intestinal symptoms (such as vomiting or diarrhea); and/or is showing mostly breathing symptoms (such as persistent coughing, sneezing, and congestion). All student absences for all of our schools are reported to York Region Health Services daily.

Children can return to school when they no longer have a fever and are feeling well enough to participate in school activities. Students who are well should attend school.
